

# Capability Statement

## About IPSA

IPSA is an Indigenous Enterprise. We are driven to provide exceptional performance for our clients whilst providing ongoing skills and work opportunities for other Indigenous businesses and local Indigenous people.

We deliver optimal outcomes through our in-house expertise and collaboration with both Indigenous and non-Indigenous businesses to deliver projects and technical services throughout metro and regional Australia. IPSA is passionate and dedicated to providing value and building long term relationships with our clients as well as creating new opportunities for individuals, companies, and communities to create their own future as part of our project delivery model.

IPSA is growing year by year as we continue to deliver outstanding work and projects for the Department of Defence and other Governmental Departments. IPSA is privately owned, with offices in Perth, Darwin, Brisbane, Adelaide and Melbourne.

IPSA is Federal Safety Accredited (FSC) and a Supply Nation registered Indigenous Enterprise

## Our values

**Performance:** Industry leadership in health, safety, and environmental performance. We reward people for being accountable and delivering outstanding performance.

**Relationships:** We are open, respectful, and grateful for the work we do. We cherish our trusted supplier and client relationships and strive to do better every time. We do not stand idle and wait for others as we create the pathway for others to follow.

**Leadership:** We provide visible leadership so that our team have energy and excitement in delivering assignments. Our integrity is always on display and we empower and motivate our people to be committed and innovative in everything we do.

**Value Creating:** We create value by achieving requirements with no fuss in a safe, timely and consistent manner. We lessen, we learn, we innovate, and we deliver on our promise.

**Giving Back:** We are respectful of our culture and heritage providing opportunities and skills to stimulate Indigenous entrepreneurship, business and economic development.

## Services

IPSA's team consists of project and construction managers, design and project engineers, key trades, Health Safety and Environmental specialists.

Within the wide range of construction projects IPSA specialises in delivering:

- Fuel systems (new build and remediation).
- Civil projects including roads, drainage and earthworks.
- Complex hydraulics (water infrastructure including sewerage system)
- Demolition and environmental remediation work
- Building projects including Non-Process Infrastructure (NPI)
- LV and HV electrical and communications
- Mechanical HVAC

IPSA operates a flexible procurement model, based on established relationships at local, regional and national level enabling us to deliver unique, innovative and cost-effective outcomes. This structure enables us to provide a core project team which we can supplement with specialist and trusted subcontractors and suppliers.

IPSA and its leadership team has significant experience in providing in construction services under a variety of contracts, including:

- Engineering, Procurement, Construction Management (EPCM),
- Engineering, Procurement, Construction (EPC),
- Alliance,
- Design & Construct,
- Early Contractor Involvement (ECI), and
- Construct only.

We adopt a flexible, best-for-project approach to delivery, with the ability to both subcontract and self-perform works.
